

1. Develop the initial housing need
Develop the Housing Design

Then
add the preliminary housing
design factors to produce the
preliminary 'Housing Spec.'

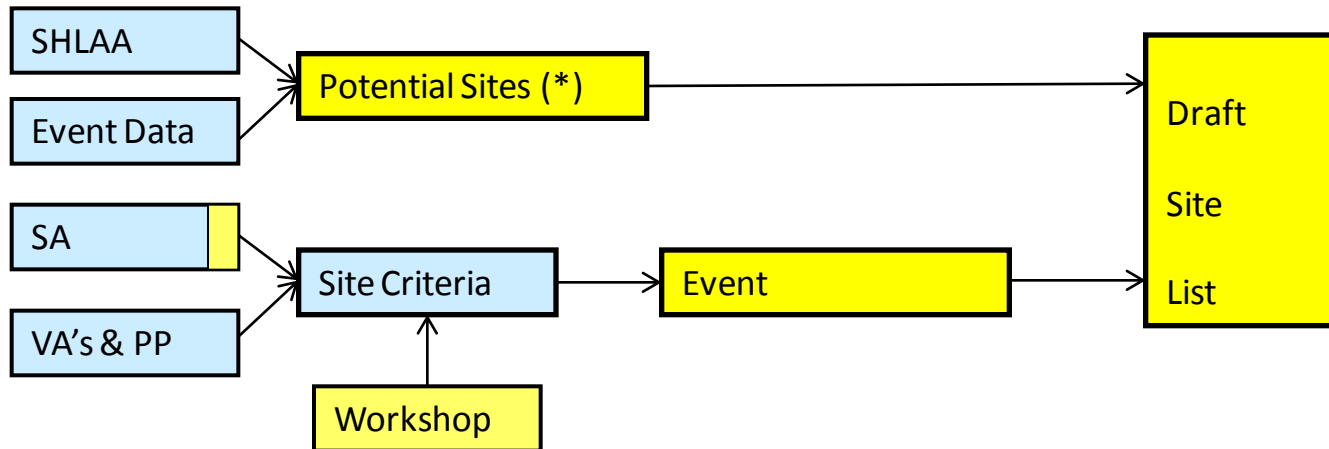

Status

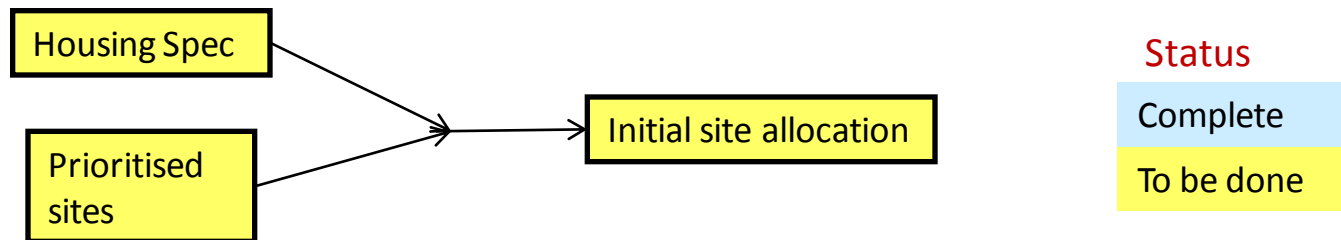

Complete

To be done

2. Complete the initial housing sites and the site selection criteria. Then apply criteria to Potential sites to give an Draft Site List.

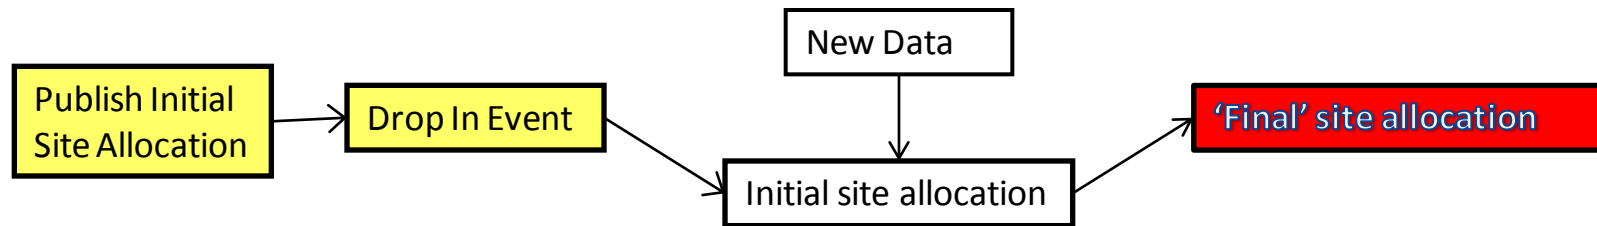

3. Then do initial matching of housing spec to Draft site list.

* - Includes initial conversation with Landowner re: Availability & Possibilities

4. Publish Initial Site Allocation for Village consultation

5. Finally...

Refine initial site allocation as new data comes in.

New Data from:

- Workshops – used to dig deeper into grey or uncertain areas
- SODC – the Core Strategy
- Census
- The Housing Needs survey
